Website: proton-tech.online

As a highly motivated and enthusiastic computer science student, excited about the prospect of securing an internship that offers on-site and online training. Eager to apply my growing knowledge in a practical setting, collaborate with industry professionals, and contribute to meaningful projects. While still developing my understanding of computer science concepts and building a strong foundation, I am confident in my ability to adapt quickly, learn from experienced mentors, and make valuable contributions during my internship.

WORK EXPERIENCE

Aug 2022 - May 2023 WMSU College of Computing Studies | PROTON TECH

QA SPECIALIST
